

## Globally, between 1 April 2019 - 31 March 2020, WaterAid reached:

**402,000 household with clean water and 700,000 with decent toilets.**

**1,910,000 household members with good hygiene.**

**456,000 school students with good hygiene**

**1,315,000 people gained access to decent toilets through healthcare centres.**

**1,309,000 people gained access to good hygiene through healthcare centres.**

**1,012,000 people gained access to clean water through healthcare centres.**

**182,000 school students with clean water and 212,000 with decent toilets.**

\* Numbers for households and schools = people who use these services every day. Numbers for healthcare facilities = the population each facility exists to serve, adjusted to reflect the scale of alternative / private provision.

\*\* People reached either through facilities or sustained promotion. Hygiene promotion numbers are estimates of people reached with hygiene promotion messages at least three times in a year through local marketing campaigns in communities, in schools and via local health services.
